

# City of Houston Occupational Injury Network COIN

**5<sup>th</sup>  
Edition**

**The City  
Occupational  
Injury Network  
(COIN)  
Directory**

**Revised:** September 2003  
Replaces the City of Houston Occupational Injury Network February 2002 Edition

**Updated:** November 23, 2004

**Revised by:**  **Cambridge**  
Integrated Services Group, Inc.

# Forward

**In keeping with the commitment to provide injured workers' with quality medical care from a highly skilled group of concerned physicians, the city has established an occupational injury network.**

**It is our belief that the utilization of this network will ensure not only the best possible medical care available to our injured workers but also to provide a consistent method of monitoring injury situations so as to promote fair and equitable treatment and encourage a safe and timely return to work.**

**A great deal of time, energy and research has been committed to the identification of the physicians listed in this directory. We are confident that these medical providers will enhance our service delivery to injured workers.**

**Under the Texas Workers' Compensation Act, an injured worker has the right to choose any doctor to provide the care necessary to treat his or her injury. Non-probationary, City of Houston municipal employees are eligible for salary continuation benefits only if treated by a City Occupational Injury Network (COIN) doctor (Executive Order 1-33: Work Ability Guidelines). If you are treating with a non-network doctor and wish to change to a COIN doctor, contact the Texas Workers' Compensation Commission at 1-800-252-7031 for information on how to request a change.**

# **Injured Employee Rights & Responsibilities**

## **You have the right to:**

- ❖ **Receive benefits and reasonable and necessary medical care to treat your work-related injury or illness for the rest of your life.**
- ❖ **Select a physician of your choice or go to the nearest medical facility.**
- ❖ **Note:**
  - **If you choose to treat with a physician not listed in this directory, you will not receive salary continuation if time is lost for work-related injuries.**
  - **This does not apply to classified employees (Fire or Police) governed by Chapter 143 of the Texas Local Government Code.**

## **You have the responsibility to:**

- ❖ **Tell your supervisor about your injury or illness. If you do not tell your supervisor within thirty (30) days, you could lose your right to benefits.**
- ❖ **Fill out a Claim for Compensation/TWCC-41 within one year of the date you were injured. You will automatically receive this form from the TWCC once they receive notice of your injury from the Third Party Administrator (claim handling company).**
- ❖ **Review, initial and sign the Instructions for Classified or Municipal Service Worker Injured on the Job.**
- ❖ **Provide your physician with Physician's Statements and make sure they are completed each time you see your doctor.**
- ❖ **Contact your supervisor every day if you are losing time because of your injury.**
- ❖ **Provide your supervisor with a written statement of what happened.**

## Frequently Asked Questions

**These questions cover common questions regarding on-the-job injuries.  
Remember: Each claim is different and must be dealt with on its own merits.**

- Q:** How long does an injured employee have to report an injury or illness?
- A:** An injury must be reported within thirty (30) days. Employees must report any occupational disease to their supervisor within thirty (30) days of the date they knew or should have known the disease may be work related. However, the city encourages reporting of an on-the-job injury as soon as possible.
- Q:** The injured employee obtains a return to work release from their doctor, comes back to work, but does not have the release from the doctor. Should the injured employee be put to work?
- A:** Absolutely not! The injured employee should not go home but should go back to the treating physician that day and bring back the release to work. Not reporting to work after receiving a release is a violation of Work Ability Guidelines.
- Q:** Does the City of Houston have light duty, restricted duty, and transitional duty?
- A:** Yes, Executive Order 1:33 (Work Ability Guidelines) requires all departments to provide light duty, restricted duty, and transitional duty for a specified period of time.

## **Frequently Asked Questions** continued

- Q:** The first doctor the injured employee saw was not a member of the COIN. Now the injured employee wants to change treating doctors. What should the employee do?
- A:** The injured employee should call the Texas Workers' Compensation Commission at 1-800-252-7031 to request a change of treating doctors. An injured employee may not seek treatment from a new doctor unless notified by the Commission that the change has been approved. Being treated by a non-approved doctor may result in the employee being held responsible for the cost of treatment.
- Q:** An injured employee complains of pain from a prior injury and leaves work to see the physician. The employee doesn't appear to be in pain, so should the supervisor allow it?
- A:** No one can judge an employee's pain by appearance. The employee must be allowed to see the doctor but must also document time away from work. Unless the employee is taken off work by the doctor, the employee must return to work that same day with a Physician's Statement as evidence of the visit. If the doctor takes the employee off work as a result of the visit, the employee must advise the department and provide medical documentation to support any absence.

## **Billing Note**

**Healthcare providers should not bill injured workers for services rendered under workers' compensation.  
The bill should be sent to the city's claims handlers at:**

**Cambridge Integrated Services Group, Inc.  
7324 S. W. Freeway, Two Arena Tower #700  
Houston, TX 77074  
Telephone: (800) 321-9117**

**Healthcare providers are paid according to a fee schedule. Sometimes the fee schedule payment is less than the amount billed. Even in this situation, it is against the Worker's Compensation Law for workers to be billed by healthcare providers. Should an injured worker receive a bill for this disallowed amount they should contact the Risk Management Division at (713) 837-9495.**

## **Your Designated Departmental Representative (DDR)**

**The City of Houston employs over 20,000 employees. That's a large number of people, all with the potential to be injured. To better handle injured employees' concerns, each department director has appointed an individual within the department to better serve you. The DDR is the first person you or your supervisor should contact when questions arise.**

## Glossary

**Chiropractic** – A person certified and licensed to provide a system of health care, based on the premise that the relationship between structure and function in the human body is a significant health factor and that such relationships between the spinal column and the nervous system are important because the normal transmission and expression of nerve energy are essential to the restoration and maintenance of health.

**Imaging Center** – A facility where diagnostic production of a clinical image using x-rays, ultrasound, computed tomography, ultra-sonography, CT or MRIs are performed.

**Neurology** – A specialist in diseases and injuries of the nervous system (brain, spinal cord, cranial nerves and spinal nerves).

**Neurosurgeon** – A physician specializing in surgery of the nervous system (brain spinal cord, cranial nerves and spinal nerves).

**Ophthalmologist** – A physician who specializes in the treatment of disorders of the eye.

**Orthopedic** – Branch of medical science that deals with prevention and correction of disorders involving locomotor structures of the body, especially the skeleton, joints, muscles and other supporting structures such as ligaments and cartilage.

## **Glossary.....continued**

**Pain Management** – Treatment whereby covered persons with specific health care needs are identified and an efficient treatment plan is formulated and implemented to produce the most cost effective outcomes.

**Primary Care Provider** – The physician to whom an individual goes for initial medical care and the management of care.

**Physical Therapy** – Rehabilitation concerned with the restoration following disease, illness, or injury, of the ability to function in a normal or near normal manner.

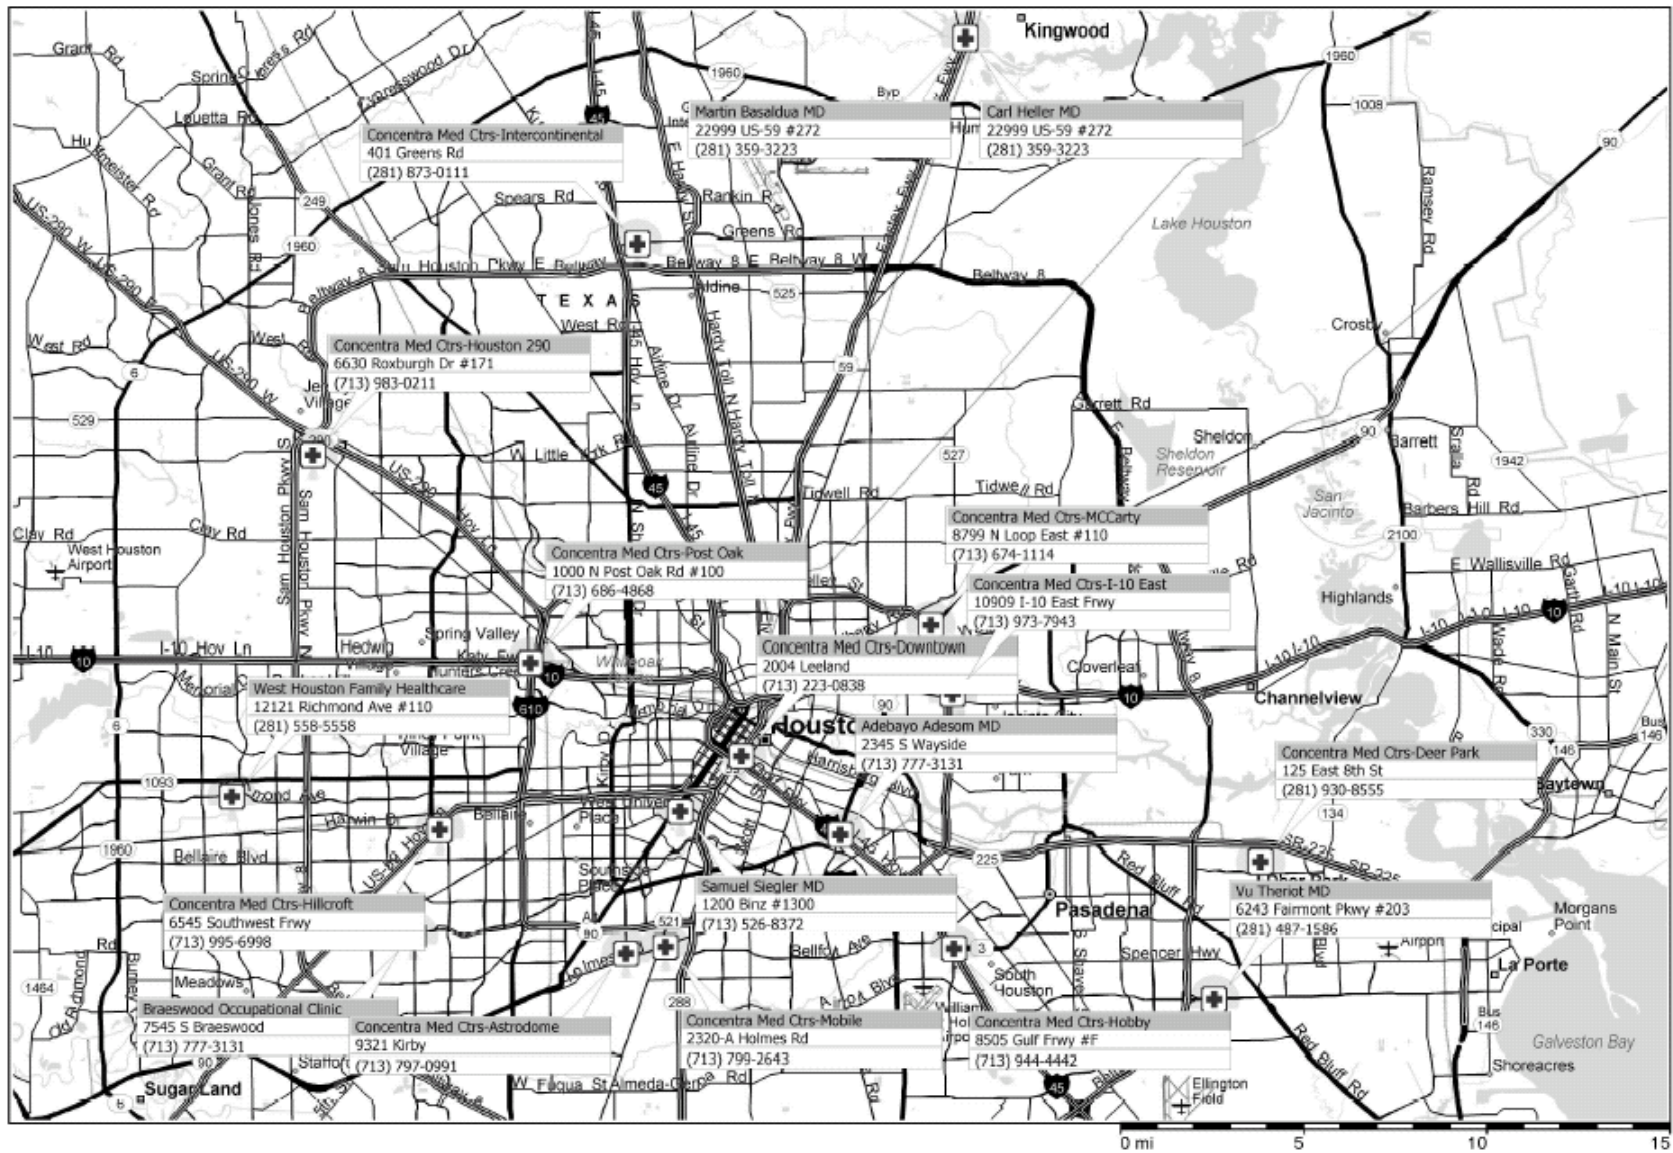

**Psychiatrist** – A physician who specializes in the study, treatment and prevention of mental illness.

**Rehabilitation Hospital** – An institution specializing in processes of treatment and education that help disabled individuals attain maximum function, a sense of well-being and a personally satisfying level of independence.

**Surgery Center** – An institution where performance of procedures of an operation take place.

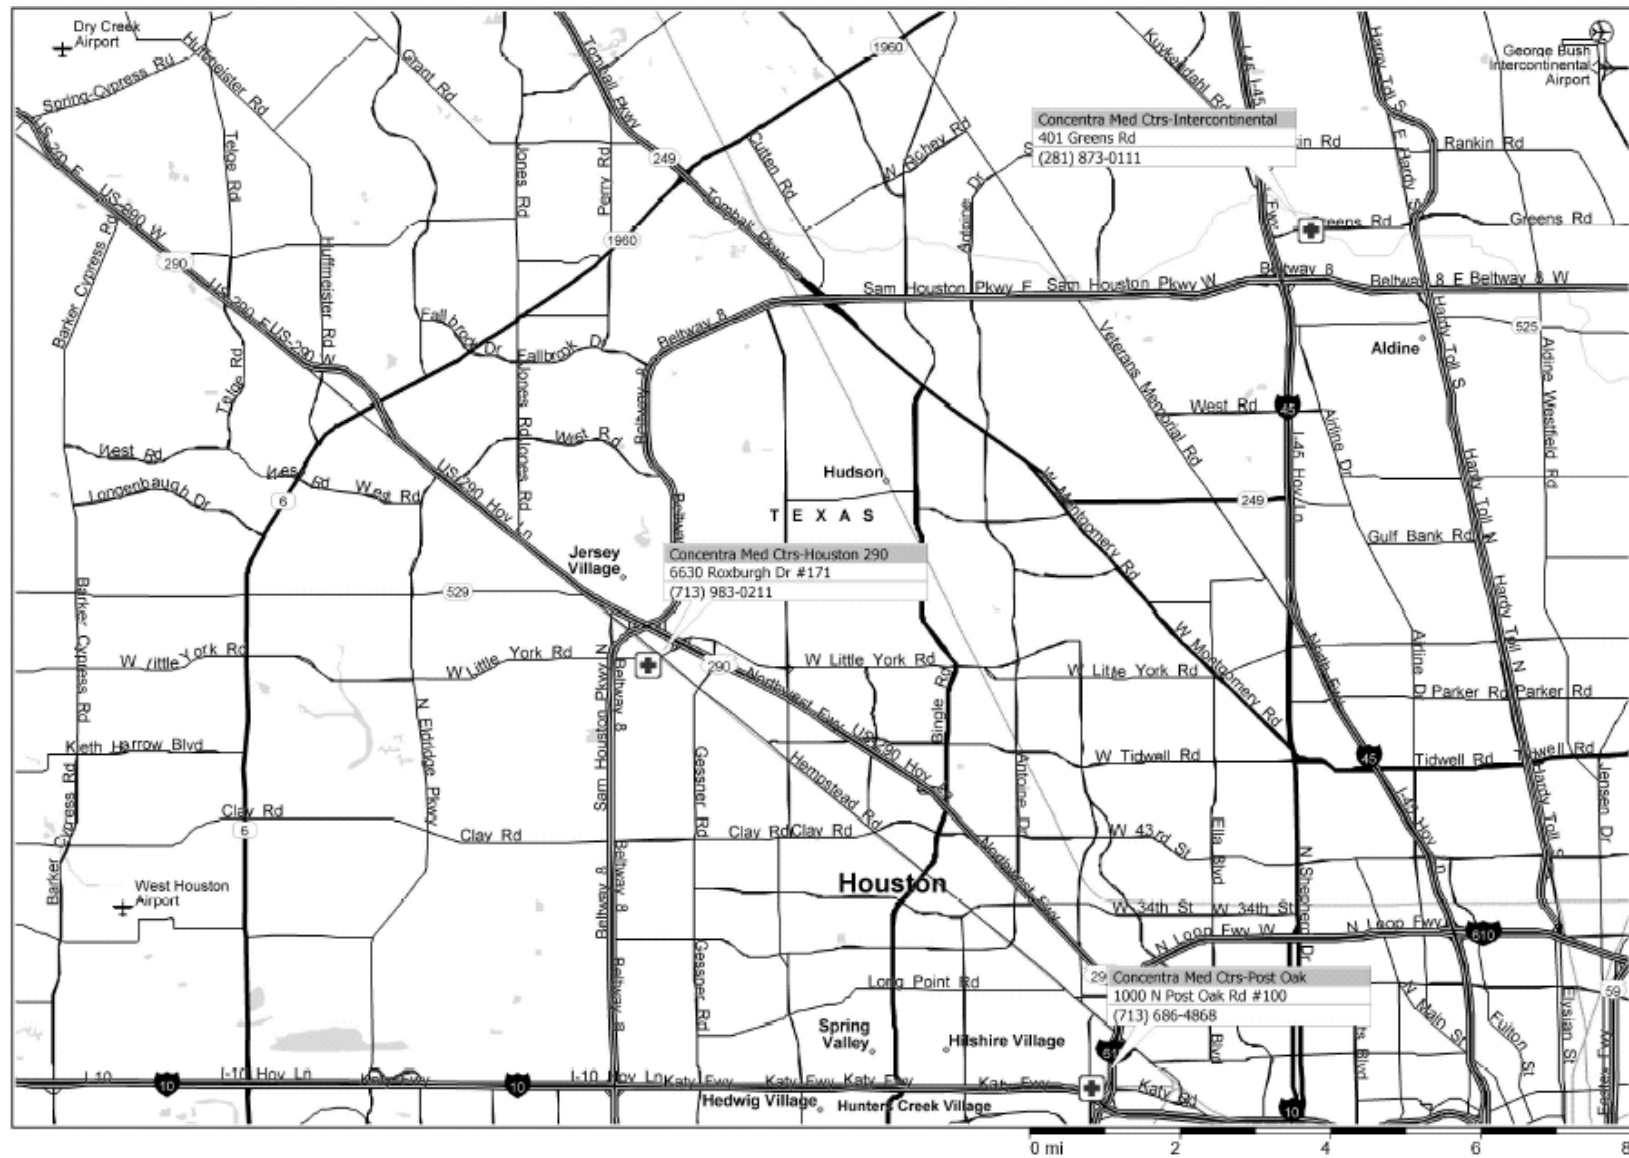

**Work Hardening** – A program to help an injured employee return to work as quickly as possible. Incorporates physical conditioning, work simulation and education to build strength and endurance, and improve function, while helping to prevent re-injury.
